I have completed and submitted this form to inform you that I am pregnant. The estimated date of conception* was on or about _____(month/year). I understand that the exposure limit for the embryo/fetus is 0.5 rem for the entire gestation period.

Please check one of the following:

- I have questions related to the radiation protection of embryo/fetus and would like a professional in radiation safety to contact me at:
_____ (home, work, or cell phone).
- If I have questions related to the radiation protection of the embryo/fetus, I will contact the Radiation Safety Officer at 703-993-4820/dstedman@gmu.edu.

CC: Diann Stedman, RSO
Office of Laboratory Safety
MSN 4E7

* The NRC defines a declared pregnant woman as a “woman who has voluntarily informed her employer in writing of her pregnancy and the estimated date of conception.” Only the month and year need be provided.

Note that you may “undeclare” your pregnancy by notifying the RSO.

If the declaration is not withdrawn, it will be considered expired one year after submission.
